Welcome Home to
VIKING MANUFACTURING INC.
Improving the Quality of Home...

Constructed of premium grade cellular PVC, our newell and column posts are the perfect upgrade to complete your railing system or any other standalone decorative feature.

VMI only produces the highest quality Cellular PVC products. Cellular PVC is a solid extruded material with the working characteristics of wood. But unlike wood, it will never warp, decay, or discolor even in the worst of weather conditions. Because it so durable, it is the most cost effective and environmentally friendly solution for any residential or commercial building projects.

Your home will benefit from the beauty and maintenance free qualities of cellular PVC.

Our column wraps are designed to easily surround existing structural columns instantly transforming the look of your home to one of instant class and luxury. (Above)

VMI only offers the highest quality 100% virgin vinyl posts & columns. Manufactured using a double extrusion process, this product does not contain any impurities or voids. This is why we can back all of our vinyl with a limited lifetime warranty.

Our milled products will withstand the test of time, ensuring beauty and durability in even the harshest of weather conditions. Vikings' product line consists of both standard designs as well as fully custom created products.

- One seam construction on all standard sized Newells and Columns
- Vikings' Plain and Recessed models come standard 3/8" thick, while our Fluted and Raised models come standard 1/2".
- Fluted, Raised and Recessed patterns begin at a 6" outside diameter.
- Custom sizes are available by special order and fabricated to even heights & widths by one foot increments.

VMI Columns

VMI fabricates standard columns to one foot increment width & heights. Top & bottom cap trim is .75" x 7" with base cap at .75". Custom tapered columns are also available by special order. Call for information.

VMI Newell

VMI fabricates all newell to standard heights 39" and 44". Trim is .75" x 7" with base cap at .75". Custom sizes available by special order. Call for information.
